

Category 3: History of Our Country

Things to consider when discussing formation of your Utopian country:

- What might have been happening in the existing country that led to the creation of your Utopian country?
- Was it a slow uprising? Did it happen rather quickly?
- What happened that allowed for the transition to your Utopian country? Was it a natural disaster? War? Revolution?
- How were you able to convince citizens to go along with you to your new country?
